DRAINAGE IMPACT FEES – SOUTHPORT	Resolution 08-89 Inflationary Adjustment	Jan. 1, 2009 Jan. 1, 2023

Drainage Impact Fees are supported by a study entitled *Southport Drainage Impact Fees* by Borcalli and Associates dated July 2, 1996. Fees in this study were updated by a Borcalli and Associates report dated May 11, 2001, entitled *Southport Drainage Master Plan* and again by a Wood Rodgers technical analysis titled *Southport Drainage Subbasin MC11, Analysis for Combining Drainage with Subbasin MC10*, dated April 15, 2004. Fees in this study, reflecting Engineering News-Record’s Construction Cost Index of 6404, have been adjusted to reflect the July 2022 index of 13167.84.

For residential developments, the fee for a single parcel as listed below shall be multiplied by the following ratio: 1 ÷ the maximum number of lots allowed under the given land use category.

Fee Schedule

B. CREDITS

Credits against fees for the following components of drainage facilities are provided for past performance (cash payments, land dedications, constructed improvements, etc.) in accordance with the Southport Drainage Master Plan, dated May 11, 2001, Appendix C, Tables C-12 through C-45, as amended by ENRCCI:

Sub-basin Specific Drainage Facilities
Common Drainage Facilities
Exempt Land Cost

C. GREEN BUILDING DRAINAGE FEE ADJUSTMENT (SOUTHPORT)

Project applicants that demonstrate green building techniques in excess of minimum building code requirements may be eligible for adjustment to the Southport drainage impact fees. The adjustment would be proportionate to the reduction in impact to the drainage system funded through the fee program. An estimate of the reduction in drainage system impact and fee amount is required by the applicant, along with substantiating evidence. The City Manager, or his/her designee, must concur with the applicant's findings prior to granting a storm drain fee adjustment.
